

1. Given `var arr=["mom","js","malayalam","html","css","dad"];`  
Expected Output=`[ 'mom', 'malayalam', 'dad' ]`  
Using for/while or do while loop

Code:

```
var x=["mom","js","malayalam","html","css","dad"];
var y=[]
for(i=0;i<x.length;i++){
    new_arr=x[i]
    m=new_arr.length-1;
    k=""
    for(j in new_arr){
        k=k+new_arr[m]
        m--
    }
    if(k==new_arr){
        y.push(x[i])
    }
}
console.log(y)
```

Output:

```
[ 'mom', 'malayalam', 'dad' ]
```
